

## **Nivis LLC to Participate at ACHEMA 2009 in Frankfurt**

**Atlanta, GA - April 30, 2009** - Nivis LLC, a leading global wireless technology innovator, will participate in the 29<sup>th</sup> International Exhibition-Congress on Chemical Engineering, Environmental Protection and Biotechnology (ACHEMA) May 11 – 15 in Frankfurt, Germany. ACHEMA is considered to be the worldwide leading event for chemical engineering and process industries.

Nivis will be participating in the Instrumentation, Control and Automation Techniques exhibition group in collaboration with HART Communication Foundation (HCF) in Hall 10.2, Stand F3-J6. A Platinum member of the HART Communication Foundation, Nivis is in the process of implementing a solution to provide reliable and secure wireless communication for the process industry in compliance with the WirelessHART standard specifications released in 2007. Three Nivis devices running the WirelessHART based software stack will be demonstrated.

“We are eager to share the exciting progress we’ve made toward implementing a solution for low-cost communication based on the WirelessHART standard,” Dan Sirbu, Nivis Director of Sales for EMEA, declared. HCF Executive Director Ron Helson referred to their recent enhancement and extension of the protocol standards to enable wireless devices and establish the first wireless communication standard for process automation as their “crowning achievement.”

ACHEMA is the leading worldwide event for chemical engineering and process industries. Four thousand exhibitors from 50 countries are expected to attract 180,000 attendees from 100 countries. ACHEMA is the only worldwide exhibition for all investment goods in the process industry. Nivis LLC is a leading provider in that arena and together with HCF will present the latest step in the wireless evolution.
